

You didn't become a Landscape Architect to file your designs in the third drawer down...

At Landscape Works we build what we design. From public spaces in Auckland, to a petrified forest inhabited by yellow eyed penguins in the Catlins, to a beachside Eco-Hotel in Tasmania, we are the designers of projects as dynamic and exciting as the company itself.

We are looking for a like-minded intermediate level (3 to 5 years experience) Landscape Architect. As well as using your natural talent for design at the LandscapeWorks studio in High Street, Auckland CBD, you will be primed to get out from behind your desk, using your solid project management skills to see a project through from start to finish.

If you can remember how it felt to want to create and build rather than just design and file, then LandscapeWorks can give you your next challenge.

Send your CV and portfolio to sally@landscapeworks.co.nz
